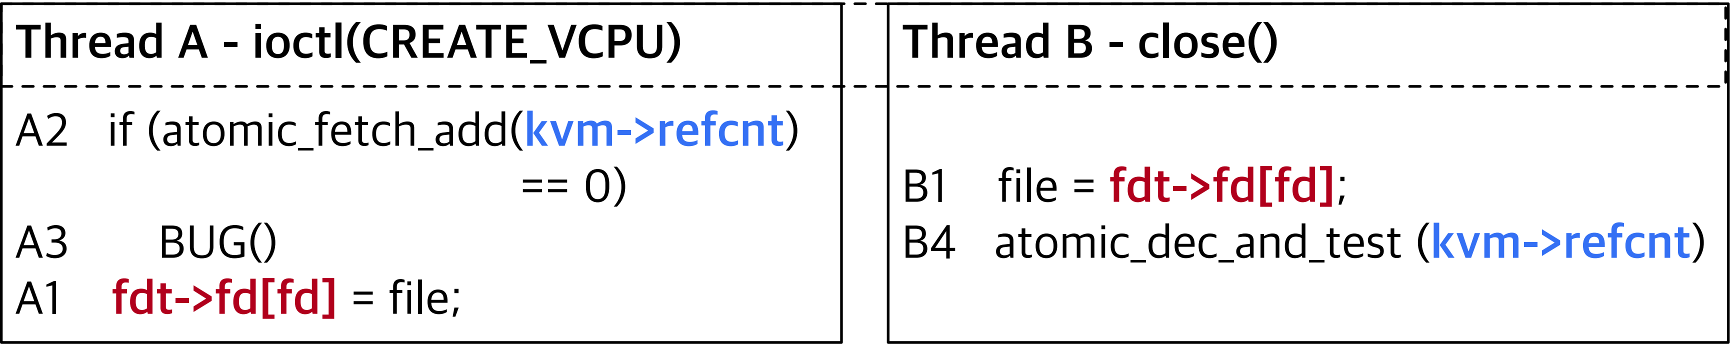
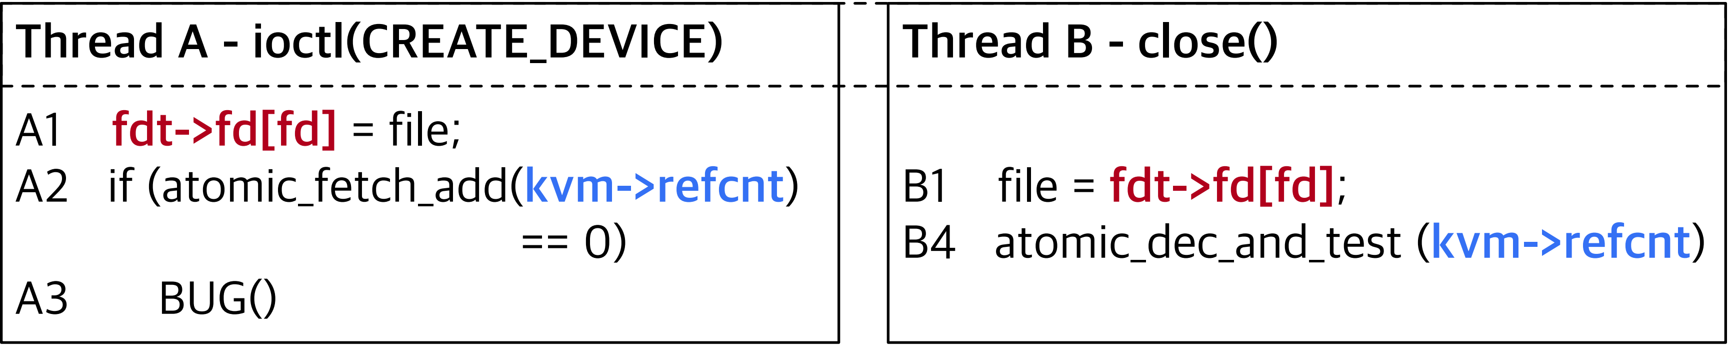
Input #1



```
Thread A - ioctl(CREATE_VCPU)              Thread B - close()
-------------------------------------------------------------------------------------
A2   if (atomic_fetch_add(kvm->refcnt)
                         == 0)             B1   file = fdt->fd[fd];
A3      BUG()                              B4   atomic_dec_and_test (kvm->refcnt)
A1   fdt->fd[fd] = file;
```

Input #2 (CVE-2019-6974)



```
Thread A - ioctl(CREATE_DEVICE)            Thread B - close()
-------------------------------------------------------------------------------------
A1   fdt->fd[fd] = file;
A2   if (atomic_fetch_add(kvm->refcnt)     B1   file = fdt->fd[fd];
                         == 0)             B4   atomic_dec_and_test (kvm->refcnt)
A3      BUG()
```
